

## Construction Update: November 26, 2022

At the roundabout last week, the contractor placed the conduit between the light pole foundations and began light pole installations. Crews also installed ornamental railing on top of the retaining walls, poured concrete sidewalks at the roundabout and placed irrigation in the middle of the roundabout. The irrigation system in the roundabout will support the landscaping that will be planted in the spring.

Next week, the contractor will continue placing light poles, installing ornamental railings and pouring concrete at miscellaneous locations in the project area.

Roundabouts are safer than normal intersections as they reduce conflict points between vehicles. As you approach the roundabout look left, yield to approaching vehicles and pedestrians and then proceed!

### Local Businesses Remain Open on Main Street!

Local businesses on Main Street will remain open as work continues. Local traffic can access businesses from IL 62, as well as Front and Edward streets while the Main Street closure is in place. Again, Main Street is closed to ALL TRAFFIC from north of Edward Street to Arrowhead Drive.

[Click here to view a map of the full closure and detour route.](#)

### Project Overview

An extension of the Old Town Algonquin project, Around and About Main Street will improve traffic flow and safety for road users of N. Main Street.
