

## Construction Update: October 22, 2022

Last week, the contractor was able to resume work around the utility pole at the corner of N. Main Street and Arrowhead Drive. This allowed construction crews to resume work on the last retaining wall required for the project.

Next week, crews will complete the retaining wall and place the stone base for the new roundabout roadway. Crews will also frame the new curb and gutter for the roundabout.

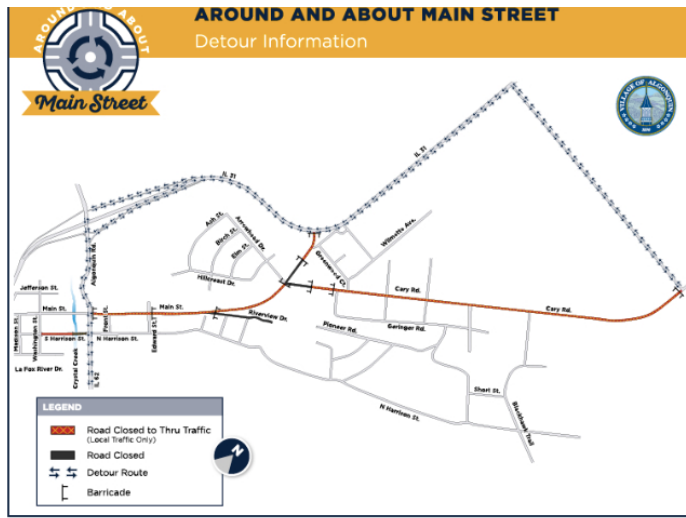

The construction team appreciates everyone's patience as we head into the final stretch of the roundabout construction. For local traffic, please remember to use caution when driving through the construction zone.

Additional landscaping will occur in the spring to accommodate the planting season.

Did you know?

Roundabouts are safer than normal intersections as they reduce conflict points between vehicles. As you approach the roundabout look left, yield to approaching vehicles and pedestrians and then proceed!

**Local Businesses Remain Open on Main Street!**

Local businesses on Main Street will remain open as work continues. Local traffic can access businesses from IL 62, as well as Front and Edwards Streets while the Main Street closure is in place. Again, Main Street is closed to ALL TRAFFIC from north of Edward Street to Arrowhead Drive.

[Click here to view a map of the full closure and detour route.](#)

**Project Overview**

An extension of the Old Town Algonquin project, Around and About Main Street will improve traffic flow and safety for road users of N. Main Street.
