

Construction Update: October 8, 2022

Last week, the contractor completed construction of the retaining wall at N. Main Street and Cary Road. Crews also added landscaping elements along the shared us path on Riverview Drive.

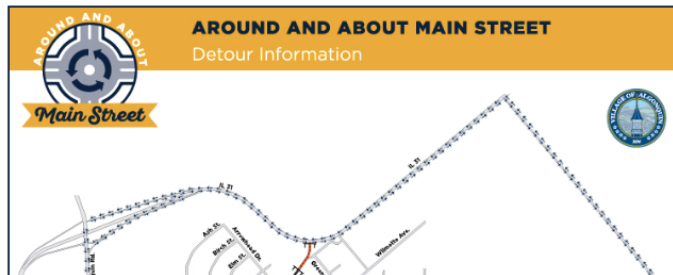

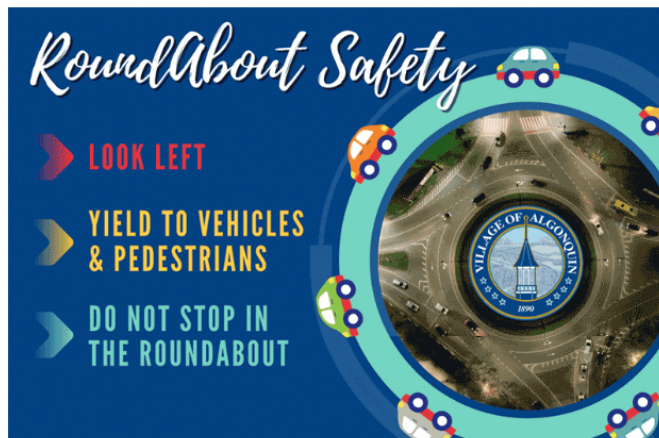

Next week, the utility company will be back on site to install a new, longer utility pole at N. Main Street and Arrowhead Drive. This work will allow crews to complete construction on the last retaining wall. The contractor also plans to begin the process of placing curb and gutter around the roundabout. The first step in this process is framing the new curb and gutters before concrete can be placed.

Did you know?

Roundabouts are safer than normal intersections as they reduce conflict points between vehicles. As you approach the roundabout look left, yield to approaching vehicles and pedestrians and then proceed!

Local Businesses Remain Open on Main Street!

Local businesses on Main Street will remain open as work continues. Local traffic can access businesses from IL 62, as well as Front and Edwards Streets while the Main Street closure is in place. Again, Main Street is closed to ALL TRAFFIC from north of Edward Street to Arrowhead Drive.
