

Construction Update - April 16, 2022

For the last few weeks, the contractor has been busy installing the water mains on both sides of Crystal Creek, between Harrison and Main streets. Crews have also removed the block wall in the parking lot behind Historic Village Hall and installed downspout drainage behind Cucina Bella and Short Stacks in the alley way.

Over the next few weeks, crews will continue water main construction and work behind the Historic Village Hall.

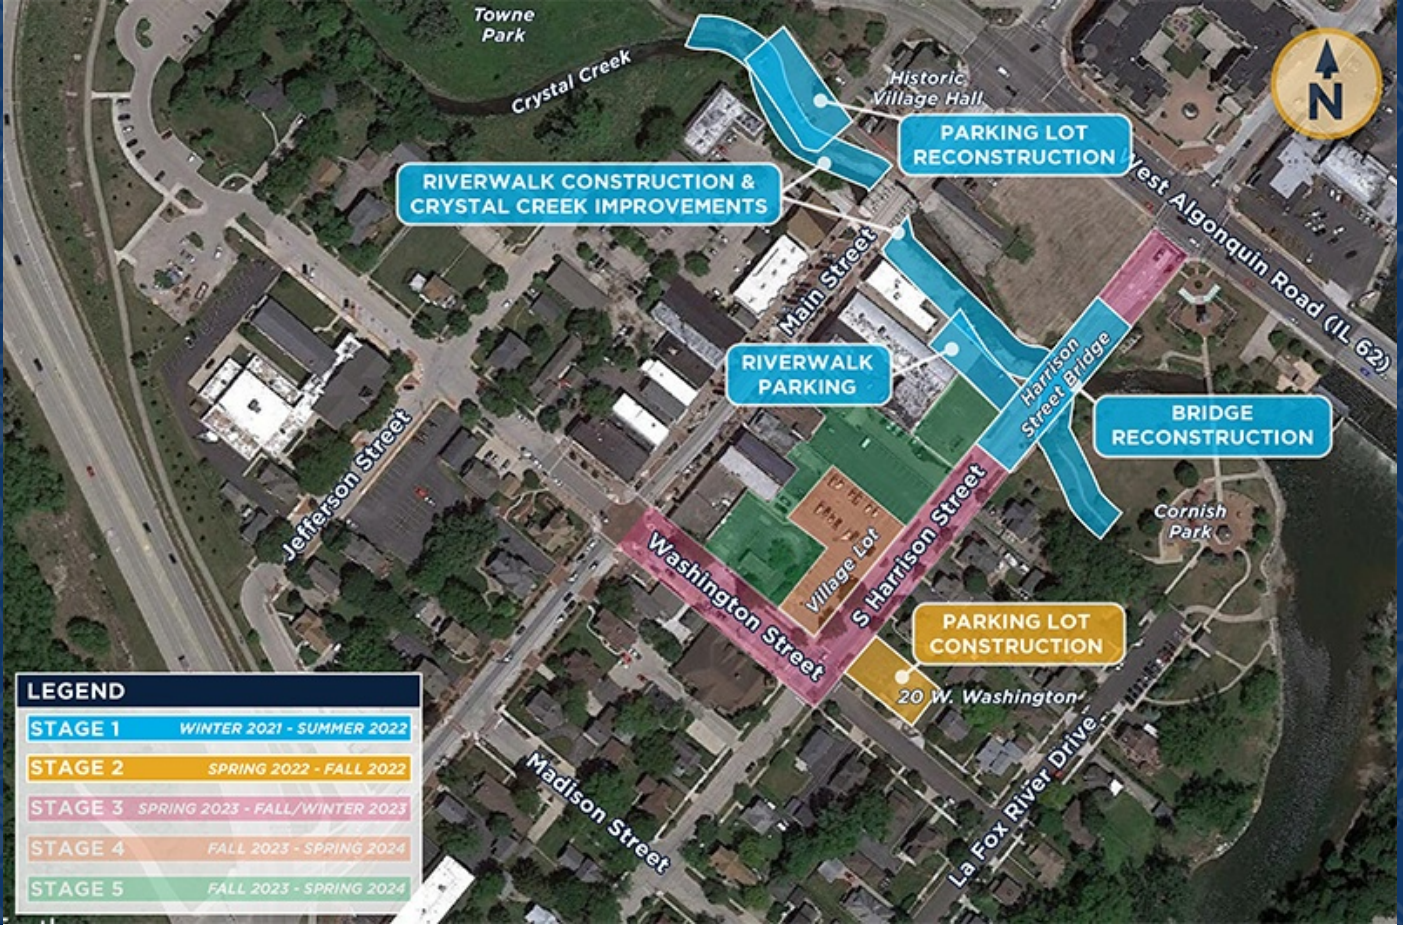

Water Main Installation
